Declaration of Persistent Organic Pollutants (POPs)

Persistent organic pollutants, such as pesticides and some industry chemicals, which can be transported across international boundaries distant from their origin source(s) and that persist in the environment, that may pose a risk to human health and the environment

The releasing of Persistent Organic Pollutants into the environment is a concern to the European Union under Regulation (EC) No 2019/1021 of the European Parliament and of the Council of 20 June 2019.

As a supplier of Industrial Cables and Cable Harnesses, we are aware of the responsibilities for protecting the environment and human health. We monitor the prohibited substances and restricted substances listed in the POPs Regulation. Our products are up-to-date based on the verified information from our suppliers. In the best of our knowledge, our products are in compliance with the POPs Regulation and do not contain substances subject to prohibitions that are found at [List of substances subject to POPs Regulation - ECHA \(europa.eu\)](#). We continue to follow the update of the POPs regulation and ensure the conformity of our products
