

PATCH PANEL MODEL AIC-1

CISCO® P/N: 74-2769-01 PATCH PANEL

Description:

AIC-1 Patch Panel (Cisco® P/N: 74-2769-01) with power monitoring terminal strips monitors 8 power feeds up to 20 Amps per feed while allowing 56 discrete alarms. The 8 analog alarm points connect to 8 power feeds for monitoring purposes. Each power feed is protected with a 20 Amp fuse. L.E.D.s offer visual representation of supplied power & fuse state.

Dimensions:

Height:1.63"
Width:19.00"
Depth:11.73" (w/ cable bracket)
1RU (rack unit)

Benefits:

- Eliminates the need for individual power to alarms
- Fused power circuits
- PCB construction
- Quick install
- Occupies only 1 RU (rack unit)

Specifications:

- Cisco® P/N: 74-2769-01
- Patented: #6,302,742 B1
- UL
- NEBS
- EIA-310-D Compliant
- Rated at 20 Amps/circuit

Accessories:

- SCSI II Cables
P/N: PF 20218-4 (Set of 4 at 8')
P/N: PF 20218 (One cable at 8')
Custom lengths available
- Telco cables
Custom lengths available
- 23" Mounting bracket (optional)
P/N: PF 20209
